Droom

Gurugram, India

- Implemented droom's proprietary payment gateway, **Droom Pay**, on the company website, optimizing the checkout experience. Ensured authentication, security, and data protection measures. **Droom-Pay** processes more than **5000+** transactions every month.
- Developed an Advanced feature enabling recurring payments through **eNACH mandates**, facilitating seamless and fast recurring payments for Droom's **proSeller** subscription packages. This innovation significantly increased monthly recurring orders, exceeding **1000+**, while ensuring compliance and user convenience.
- Collaborated with a team of **10-12** professionals to revamp the Droom website using **Next.js** and **Strapi CMS**, streamlining content management and reducing unnecessary coding by **30-40 percent**. This overhaul considerably enhanced website **performance and improved SEO** by **200 percent**.

PROJECTS

- Chatmate.** A real-time chat app using **MongoDB, Express.js, React.js, Node.js, and Socket.IO**. Features include real-time messaging, **secure authentication**, and a sleek user interface. Security is paramount, with industry-standard encryption and authentication practices implemented throughout.[Live Demo](#)
- Recipe Book.** Developed a recipe app using the **MERN stack**, which will be more than enough for all the cravings, cataloging over **1,000 recipes** with detailed nutrition information and ingredient lists. The app ensures a smooth user experience.[Live Demo](#)
